Design tools: Figma, Photoshop, Illustrator, Canva, MindJourney.

Other tools: Office packages, ChatGPT, npm, Vercel, Render, Netlify, Sanity, Prismic, WireShark, and FileZilla.

Database management systems: MySQL, MariaDB, PostgreSQL, MongoDB.

Operating systems: macOS, Windows XP - Windows 11, Linux.

- Design and develop fully-responsive applications to enhance user experiences and achieve the desired result.
- Develop, write, test and debug code using object-oriented techniques to create efficient and organized code.
- Implement modern frameworks like React, NEXT.JS, and NodeJS to build scalable and efficient web applications.
- Create well-designed databases and manipulated their objects using SQL commands, ensuring data integrity.
- Design websites by creating responsive components, custom styles, and design systems, resulting in visually appealing and intuitive user interfaces.
- Work in an Agile environment to complete projects efficiently and on time.
- Communicate with team members and follow up with requests, feedback and concerns to increase productivity.

ADDITIONAL QUALIFICATIONS

- Highly cooperative, empathetic, and respectful, excelling in a team environment, as demonstrated during 4+ years in various customer service roles.
- Strong drive for learning, adopting new technologies, and a natural aptitude for quick learning.
- Knowledge of efficient time-management strategies to schedule and complete tasks to deadlines, avoiding stress.
- Strong attention to detail and accuracy, ensuring high-quality work output and minimal errors.

Languages: English, French, Ukrainian, Russian.

PROJECTS

MELNIK LAW | LAWYER PERSONAL SITE | ONGOING

- Designed and developed a fully-responsive website for a lawyer, leveraging *NEXT.JS* 13 and *ReactJS* engines.
- Implemented dynamic routing to enable blog functionality, allowing for seamless navigation and content viewing.
- Connected to headless CMS via API to store, edit, and display content integration, ensuring efficient management.

SMARTFACE | AI FACE RECOGNITION APP | FEBRUARY 2023

- *ReactJS* web application with register/login functionality to enable face detection in images through AI technology.
- Communicated with *REST API* to detect faces in images, leveraging the power of AI to help users.
- Implemented secure data storage by leveraging *Node.js*, *Express.js*, and *PostgreSQL*, ensuring encrypted user information using *BCrypt*.

GAMETRO | ONLINE RETRO GAME PLAYGROUND | DECEMBER 2022

- Online platform catering to retro game enthusiasts, providing retro game playing, score competition, and access to retro game news.
- Developed custom games using *JavaScript*, offering users an immersive retro gaming experience.
- Integrated *News API* and custom *JQuery* scripts to deliver real-time retro game news and additional functionalities.

NOTE: these and other projects can be seen live on [my website](#). They are done on top of college assignments.
